

THE COMPANY PROFILE

BACKGROUND

Galela Telecommunication Holdings (Pty) Ltd herewith referred to as “Galela” is a 100% black owned business based in Johannesburg the economic hub of South Africa. Galela was formed in 2007 with the purpose to participate in various sectors of business.

Galela’s initial strength was in the Telecommunications industry and grew to establish itself in the Mining & Energy industries as well as having an investment arm for acquisitions & expansions within the same sectors. To date Galela has successfully established three brands under its umbrella namely; Galela Capital, Galela ICT Solutions and Galela Mining & Energy.

Galela also has interests in other businesses including Tradepage, Wireless Business Solutions (Pty) Ltd. Through WBS, Galela has interest in iBurst and Broadlink. Below are all the divisions of the company with a specific key focus in the different solutions, clients and technology partners for the various industries.

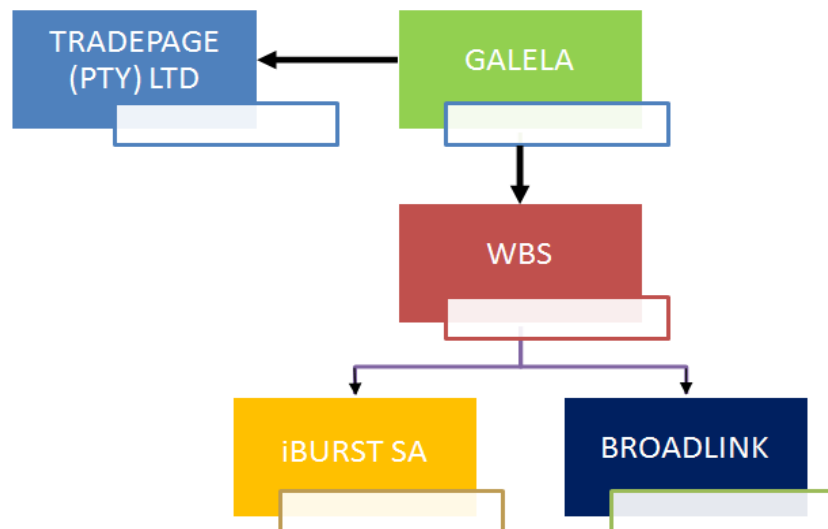

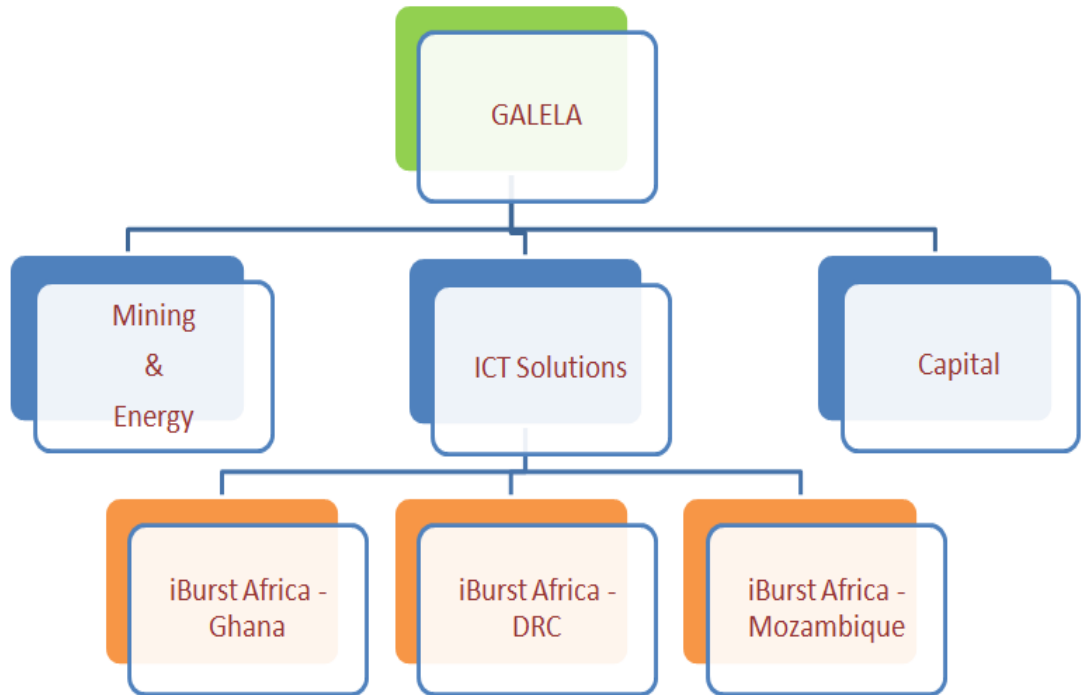

OUR PRODUCT SOLUTIONS

Galela Telecommunication Holdings (Pty) Ltd, trading as **Galela ICT Solutions** is focused on Telecommunication services and solutions. **Galela ICT Solutions** is a major service provider of **iBurst (Pty) Ltd**. It offers innovative ICT solutions mainly to state owned entities including Alexkor, USAASA and Tshwane FET Colleges. Galela offers VOIP solutions, Wireless Broadband and WiFi services. Due to its relationship with **iBurst**, **Galela** has access to the latest telecommunication infrastructure and spectrums that allows it to offer progressive ICT solutions to the market.

Galela Mining & Energy (Pty) Ltd is a division within **Galela** formed to focus on innovative mining & energy solutions. This division holds a wholesale certificate to offer licensed petroleum products from the Department of Energy of South Africa. **Galela** seeks to be part of the change in the mining industry that was previously dominated by white owned & multinational companies. **Galela** believes that the indigenous people of the country should be empowered by minerals and other natural resources extracted from their own land. **Galela** to date has secured a supply agreement for Liquefied Natural Gas (LNG) with Russia.

Galela Capital (Pty) Ltd is a division within **Galela** formed to be a financing vehicle for all **Galela's** investments in new acquisitions & expansions within the industries that the company has attained presence. This division successfully raised funds to form **iBurst Africa**. **iBurst Africa** offers telecommunication solutions & has presence in Mozambique, Ghana and the DRC. Currently **Galela Capital** is working on acquiring funds to build a power plant in COEGA IDZ. This power plant will produce a capacity of 4000 MW over 3years.

ORGANISATIONAL STRUCTURE

OUR PARTNERS

Galela endeavors to work with well established, reputable companies to transfer much needed skills into South Africa and the continent of Africa. **Galela** through mutual beneficial partnerships provide world class services and solutions with well renowned international companies.

To this end **Galela** has partnered with:

- General Electric (GE) for the gas turbine power plants
- The LINDE Group in Munich Germany for various gas projects
- Gazprom for the supply of gas
- Bashneft for the supply of diesel
- MBI international for fuel storage and transportation (FSRU/ TSV)
